

Movies on the Go!

Wherever you go - go with the new Kaser Mambo-Flix portable media players. Mambo-TouchFlix brings you the latest innovations with a brand new touch screen interface and built-in digital camera. Watch your favorite movies, listen to your favorite digital music, read a book, or browse your photos. Blockbusters movies, birthday parties, family outings, or your favorite TV shows - they all fit in your shirt pocket.

Mambo-TouchFlix and Mambo Flix support all your favorite types of media. With its surround sound effects, equalizer modes and a high quality built-in speaker, your music collection has never sounded so good. The large LCD is ideal for sharing a slideshow of your precious photo memories or to catch up on a little reading with the E-book reader.

Mambo-Mano™

Your Music, Your Style

Take your music anywhere with Kaser's feather-light Mambo flash memory digital audio players.

The Mano's super-slim, backlit LCD screen displays your favorite pictures and MPEG4 movies in vibrant colors. Adjustable equalizer modes optimize your sound for your favorite style of music. Karaoke-style lyrics lets you sing along. Its high-speed USB 2.0 port copies music files quickly so you can get back into your groove.
